

A+ Enriched Online™ – Advanced Placement®, World Language, and Specialized Elective Courses

Offer Your Students the Choice of 20 Advanced Placement® (AP®), 20 World Language, and Four Specialized Elective Courses.

Online education classes extend the scope of a school’s instructional program, allowing schools of any size to meet the needs of each member of a diverse student body without straining its resources. Schools can offer a wide variety of courses without adding staff or classrooms. Even students who are physically unable to attend the school can continue to be active members of the student body and all students who enroll in our courses can have their study schedule tailored to their individual needs.

A+ Enriched Online™ courses are delivered to students over the Internet. The courses have been developed by K-12 subject matter experts, designed by top multimedia teams, and are delivered in the online environment by highly-qualified certified subject matter instructors. All courses are designed to meet national and state standards.
